

Coronavirus
(COVID-19)

GOOD HYGIENE IS IN YOUR HANDS.

Wash your hands thoroughly with soap and water for at least 20 seconds to prevent passing on germs. Dry your hands.

Australian Government

Hand Hygiene

Protect yourself against infection

- Clean your hands regularly.
- Wash your hands with soap and water and dry them thoroughly.
- Use alcohol-based hand sanitizer if you don't have immediate access to soap and water.

How do I wash my hands properly?

Washing your hands properly takes about as long as singing "Happy Birthday" twice, using the images below.

Wet hands with water

apply enough soap to cover all hand surfaces.

Rub hands palm to palm

right palm over left dorsum with interlaced fingers and vice versa

palm to palm with fingers interlaced

backs of fingers to opposing palms with fingers interlocked

rotational rubbing of left thumb clasped in right palm and vice versa

rotational rubbing, backwards and forwards with clasped fingers of right hand in left palm and vice versa.

Rinse hands with water

dry thoroughly with a single use towel

use towel to turn off faucet

...and your hands are safe.
